Real World Projects

- **SNDT College Yavatmal – HTML, CSS** As a web developer, I had the opportunity to create a professional and informative website for SNDT Women's College, hosted at the domain shreematikamalabaiyadavraodangeartscommercesciencemahavidhayal.com. This project involved using HTML and CSS to design and build a responsive and user-friendly website tailored to the needs of college.

Projects

- **Airline Ticket Booking – C & C++** (Developed an airline ticket booking program in C and C++ with file handling capabilities, enabling users to book and delete tickets.)
- **Indi-Coffee Website – HTML, CSS** (Developed an e-commerce coffee ordering website using HTML and CSS, facilitating effortless coffee delivery to home.)
- **Home Decors – HTML, CSS** (Developed a home decors website with appointment booking functionality for users.)

- **Courier Management Website – HTML, CSS, PHP and DBMS** (Designed and developed a courier management website using HTML, CSS, PHP and DBMS, enabling efficient item shipping and automatic weight-based pricing.)
- **Travel Agency Website – HTML, CSS, PHP and DBMS** (Developed a responsive travel agency website, featuring user-friendly tour booking functionality, tour management and administration capabilities using HTML, CSS, PHP and DBMS.)

Areas of Interest

- ✓ Web Development.
- ✓ UI/UX Design
- ✓ Data Analysis.
- ✓ Volunteering to help develop the technological needs for non-profit group.
- ✓ Artificial Intelligence and Machine Learning.
